Dec. 2021

PROJECTS

Portfolio

[github](#)

Developed a personal portfolio website using JavaScript, HTML/CSS to showcase web development skills and projects. The portfolio is hosted on Cloudflare, demonstrating proficiency in deploying and managing web applications. Designed an aesthetically pleasing and user-friendly interface to showcase previous projects and skills, enhancing overall digital presence and online visibility.

Agile Scrum Sprint Planner

[github](#)

Designed and developed scrum planning poker application using JavaScript, HTML/CSS and an MQTT messaging server. Users can configure the session by modifying the number of cards and card values/increments. Once the session begins, users may vote by clicking a card. Once all participants have voted, the votes can be revealed.

EXPERIENCE

Machine Operator

Jun 2022-Dec 2022

Nebraska Furniture Mart

The Colony, TX

- Tracked and managed orders in a 1.3 million square foot warehouse using asset management software.
- Upgraded computer hardware and software on machines, while training employees on the new system to foster teamwork and collaboration.
- Collaborated with cross-functional teams to ensure smooth operations during system upgrades, demonstrating excellent teamwork and communication skills.

Ranch Assistant Manager (college internship)

May 2018-May 2022

Pony Creek Ranch

Stephenville, TX

- Developed and maintained a technology-based budgeting system using spreadsheet and database tools, optimizing operational expenses.
- Provided technical support for day-to-day operations, including purchasing and maintenance of specialized equipment, ensuring seamless operations.
- Demonstrated a strong ability to address and resolve technical issues promptly, ensuring smooth operations and minimal downtime for end-users.
